

A whiteboard with a wooden frame and a metal eraser at the bottom. It contains five lines of handwritten mathematical equations in black marker. The equations are:  $2^2 - 1 = 3$  prim,  $2^3 - 1 = 7$  prim,  $2^5 - 1 = 31$  prim,  $2^7 - 1 = 127$  prim, and  $2^{11} - 1 = 2047 = 23 \cdot 89$ .
$$2^2 - 1 = 3 \text{ prim}$$

$$2^3 - 1 = 7 \text{ prim}$$

$$2^5 - 1 = 31 \text{ prim}$$

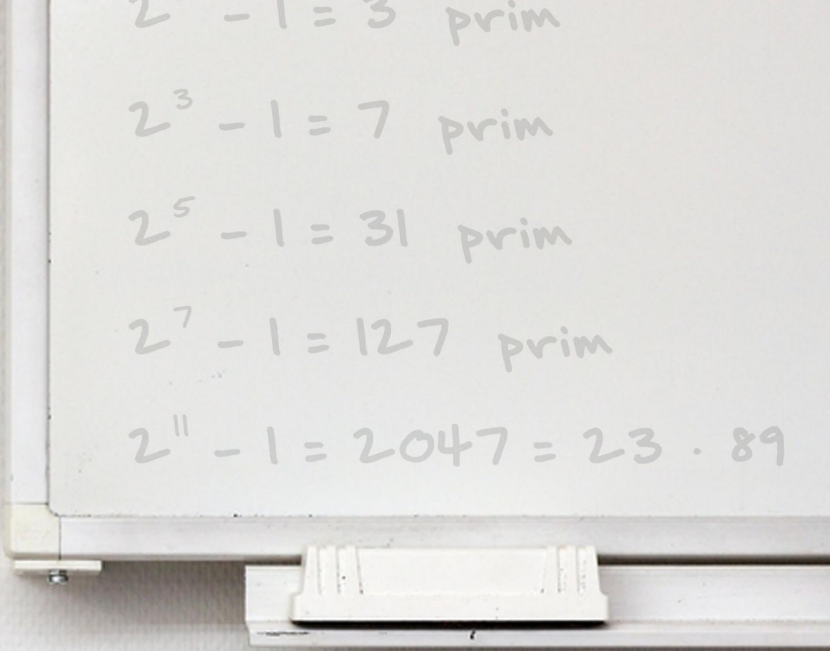

$$2^7 - 1 = 127 \text{ prim}$$

$$2^{11} - 1 = 2047 = 23 \cdot 89$$
